

SUNOCO ULTRA HIGH MILEAGE SN PLUS OILS

OVERVIEW

ULTRA HIGH MILEAGE OILS are designed to meet the most demanding lubrication requirements of today's naturally aspirated, turbo-charged and super-charged gasoline engines and ethanol containing fuels up to E85. These oils are manufactured with the latest technology to provide protection against LSPI (Low-Speed Pre-Ignition), an engine event that can cause premature wear and, in some instances, catastrophic engine failure. Designed to provide excellent oxidation stability and low temperature properties to ensure protection during cold starts, ULTRA HIGH MILEAGE OILS exceed the requirements of ILSAC GF-5 and are "Resource Conserving".

FEATURES & BENEFITS

SUNOCO ULTRA HIGH MILEAGE OILS protect and enhance engines with 75,000 miles or more including today's modern engines utilizing GDI (gas direct injected) fuel systems and turbo boosts. These fluids are recommended for most all modern passenger cars and light duty trucks and are backwards compatible with most all older designed engines. Always refer to your owner's manual for your specification and recommended viscosity grade.

TYPICAL PROPERTIES

Product Code	7533	7543	7553	7563
SAE Viscosity Grade	5W-20	5W-30	10W-30	10W-40
Viscosity, cSt @ 40 °C	50.5	63.5	70.2	109.1
Viscosity, cSt @ 100 °C	8.65	10.63	10.61	15.65
Viscosity Index	149	158	139	152
HT/HS, cP @150 °C	2.6	3.0	3.1	3.3
NOACK	12.5	11.0	10.0	12

APPLICATIONS

SUNOCO ULTRA HIGH MILEAGE OILS are specially formulated with a blend of synthetic and conventional base oils along with select conditioning and wear additives and are designed for higher mileage vehicles. They have enhanced oxidation stability agents and help to tighten engine component clearances that may have widened over excess miles and wear and tear.

SPECIFICATIONS

API SN, SN Plus, SM, SL, SJ • ILSAC GF-5 • (SAE 5W-20) Ford WSS-M2C945-A • Ford WSS-M2C945-B1 • (SAE 5W-30) Ford WSS-M2C946-A • Ford WSS-M2C946-B1 • GM6094M
