

SUNOCO PREMIUM ASHLESS NATURAL GAS ENGINE OILS

OVERVIEW

SUNOCO PREMIUM ASHLESS NATURAL GAS ENGINE OILS are high performance formulations designed for engines requiring a low or zero ash level lubricant due to their spark-ignition gas combustion cycle. These primarily 2-stroke or CAT fitted, aggressive-compound free gas-powered engines, operate in a wide variety of equipment under various levels of duty and benefit from the robust wear, thermal, and oxidation inhibitors present in these premium quality engine oils.

FEATURES & BENEFITS

SUNOCO PREMIUM ASHLESS NATURAL GAS ENGINE OILS utilizes a superior detergent and dispersant additive system to deliver and protect key engine components in all weather conditions under all types of loads. Designed for excellent thermal, oxidation, acid, and deposit control, SUNOCO PREMIUM ASHLESS NATURAL GAS ENGINE OILS reduce wear, keeps surfaces cleaner, provides for safe use of catalytic converters, and sheds water and air for full film lubrication.

TYPICAL PROPERTIES

Product Code	-	7023
SAE Viscosity Grade	40	15W-40
Viscosity, cSt @ 100 °C	14.3	14.5
Viscosity, cSt @ 40 °C	138	112
Viscosity Index	101	132
Sulfated Ash, %/m	.007	.007
TBN, mg/KOH/g	.7	.7

APPLICATIONS

SUNOCO PREMIUM ASHLESS NATURAL GAS ENGINE OILS is available in SAE 40 and 15W-40 viscosity grades. They offer wide operating ranges and high TBN retention for severe duty and long service applications.

SPECIFICATIONS

Formulated for use in many types of equipment, including products made by:

Allis-Chalmers • AJAX • Clark • Climax • Cooper-Bessemer • Fairbanks-Morse • Worthington (2T)
