

SUNOCO PARAFFINIC PROCESS OIL 350

OVERVIEW

SUNOCO PARAFFINIC PROCESS OIL 350 is a solvent refined, hydrofinished high VI process oil that can be used in a wide variety of applications.

APPLICATIONS

SUNOCO PARAFFINIC PROCESS OIL 350 is a straight-cut paraffinic oil that can serve as a process oil, circulating oil or vacuum pump oil due to its low aromatic content. It is also suitable for use as a non-detergent lubricant

FEATURES & BENEFITS

SUNOCO PARAFFINIC PROCESS OIL 350 is light in color, high in saturates, low in sulfur and has low volatility making it suitable for use a base stock, a diluent, and manufacturing process oil.

TYPICAL PROPERTIES

PRODUCT CODE	1743
Viscosity, cSt @ 40°C	68
Viscosity, SUS 100°F	350
Viscosity Index	95
Color	0.5
Flash Point, COC, min., °C	225
Pour Point, max., °C	-9
TAN, mg KoH/g, max.	0.05
